

Beam Clamps

Beam clamps provide mounting means for the attachment of conduit hangers; either directly or by means of threaded rod.

East Electric heavy duty beam clamps feature single screw, two-hole assembly and are manufactured from malleable iron Jaw openings range from 3/4" to 1 1/8"; appropriate for load capacities from 125 to 600 lbs. Solid, malleable iron body will not distort or slip off beam when tightened.

Features

- Suitable for support up to 600lbs
- Malleable iron body will not slip or distort when tightened

Standard Materials

- Cast iron
