EAST ELECTRICAL SUPPLY INC

Specification Sheet - 2025-2

Conduit Bodies (LL-Type)

For use with Rigid/IMC conduits and raceway.

East Electric Conduit Bodies Rigid Threaded LL type, with Cover and Gasket is features copper free aluminum construction. LL type conduit bodies permit 90° left bends in conduit systems, provide easy access for splicing and can correct and change direction of conduit runs. Smooth, rounded integral bushings in hubs offers protection for conductor insulation. Excellent ground continuity and corrosion resistance; lightweight aluminum construction. Cover and watertight gasket ensures weatherproof installations; UL listed.

Features

- Die-cast copper-free aluminum construction is lightweight and corrosion resistant for long reliable service
- Epoxy powder coat finish provides additional corrosion resistance
- Flat back suitable for surface mounting
- Rated for wet locations when used with cover and gasket to join threaded rigid conduit

Standard Materials

- Bodies: Copper-free aluminum / Epoxy powder paint
- Covers: Aluminum w/ stainless steel screws, natural finish
- Gaskets: Neoprene
