

Aluminum Couplings

Aluminum couplings are used join and extend aluminum rigid conduits.

East Electrical's aluminum couplings are manufactured from a high-strength aluminum alloy. Aluminum couplings are available in normal trade sizes from 1/2" to 6".

Features

- Consistent Quality - We manufacture our couplings to be long lasting, durable, and suitable for the harshest environmental conditions.
- Lightweight and Corrosion Resistant - High-strength aluminum alloy allows for a lightweight and corrosion resistant product.

Aluminum Couplings

Part No.	Size	Inner Case	Master Case
012ARC	1/2"	50	400
034ARC	3/4"	50	300
100ARC	1"	30	180
125ARC	1 1/4"	25	100
150ARC	1 1/2"	25	75
200ARC	2"	1	60
250ARC	2 1/2"	1	12
300ARC	3"	1	8
