

East Electrical Supply Inc.

Specification Sheet - 2023-8

Rigid Couplings

Rigid couplings are used to join and ensure proper alignment of threaded rigid or IMC conduit.

East Electrical's rigid couplings are manufactured from seamless steel pipes, and coated in zinc during a hot dip galvanizing process. Rigid couplings are available in normal trade sizes from 1/2" to 6".

Features

- NPSM Thread

Rigid Couplings

Part No.	Size	Inner Case	Master Case
012RC	1/2"	150	400
034RC	3/4"	50	300
100RC	1"	30	180
125RC	1 1/4"	25	100
150RC	1 1/2"	25	75
200RC	2"	20	60
250RC	2 1/2"	N/A	12
300RC	3"	N/A	8
400RC	4"	N/A	4
500RC	5"	N/A	2
600RC	6"	N/A	3
