

## 4" Square Single Gang Covers

4" square blank flat covers are used to cover 4" square box wiring and provide a means for access when future conduit runs are required. Angled slots on the covers compensate for up to 12° of box misalignment on upright framing members.

### Features

- Ideal for exposed work applications, providing an easy method for the installation of electrical devices
- Can be used on any 4" square box

### Standard Materials

- Galvanized Steel
