

4" Square Double Gang Device Rings

4" double gang device rings are used with 4" square boxes to mount switches, receptacles, and devices. Angled slots on the covers compensate for up to 12° of box misalignment on upright framing members. Four slots for mounting vertically or horizontally.

Features

- Ideal for exposed-work applications, providing an easy method for the installation of electrical devices
- Can be used on any 4" square box

Standard Materials

- Galvanized Steel
